

# Seed Variety Statement and Indemnification

Seed can be protected by patents and by the Plant Variety Protection Act (PVPA). Seed protected by a patent cannot be replanted without the permission of the owner of the patent. Seed protected by a PVPA Certificate cannot be used for seed by anyone other than the grower who originally purchased the seed. People who assist a grower in violating a patent or a PVPA Certificate may also be found liable. Examples of patented seed include Roundup Ready® soybeans, Roundup Ready canola, Bollgard® cotton and Roundup Ready cotton. All Roundup Ready seed is protected by patents, regardless of the brand, and cannot be replanted by anyone. We cannot allow any person or farm entity to pick up or deliver this seed other than the person or farm entity who delivered the seed to us.

Please provide the following information for each variety to be conditioned:

1. The variety being conditioned is \_\_\_\_\_.
2. Is this variety protected by a patent?       Yes       No       Don't Know\*
3. Is this variety protected by a PVPA Certificate?       Yes       No       Don't Know\*
