

9288 R2X

2.8 RM

VARIETY DESCRIPTION

- Outstanding performance
- Good height and width
- Great Phytophthora tolerance

AGRONOMIC FEATURES*

RELATIVE MATURITY	2.8	HILUM COLOR	BR
STANDABILITY	6	SCN	R3, MR14
HEIGHT	MT	POD COLOR	BR
EMERGENCE	7	PUBESCENCE COLOR	LTW
PLANT TYPE	MB	FLOWER COLOR	P
WHITE MOLD TOLERANCE	5	PROTEIN	41.0
PHYTOPHTHORA TOLERANCE	8, Rps3a + 1c	OIL	22.5
HIGH PH TOLERANCE	6		

Rating Scale: 9 = Excellent, 1 = Poor | Height: M = Medium, MT = Medium-Tall | Plant Type: M = Medium, MB = Medium-Bush, B = Bush
Color: IBL = Imperfect Black, BL = Black, GR = Gray, BR = Brown, TN = Tan, TW = Tawny, LTW = Light Tawny, W = White, P = Purple

Verified Quality by
THE NEBRASKA CROP
IMPROVEMENT ASSOCIATION

Verification Required The last patent on the original Roundup Ready® soybean trait expired a few years ago and U.S. farmers may legally plant saved seed from some varieties of soybean containing the Roundup Ready® soybean trait. However, it is important that you check with your seed supplier to determine if a specific Roundup Ready® soybean variety is covered by other intellectual property rights, and if so, the policy for saving seed of that variety.

Higher Seeding Rate A higher seeding rate may be required for bin-run Roundup Ready® soybeans compared to new branded seed.

Yield Loss Roundup Ready 2 Yield® soybean, Roundup Ready 2 Xtend® soybean, and XtendFlex® soybean varieties typically have a higher yield opportunity than Roundup Ready® soybean varieties.

Cleanout Loss Loss of seed and/or shrink occurs during the seed cleaning and handling processes for bin-run seed.

Seed Treatment Costs Treating your seed will add costs—both the cost of the treatment and the application of that treatment.

Lost Income Every bushel of saved seed you plant is a bushel you're not selling as commodity grain.

Increased Seed Management If you plan to save and bin-run Roundup Ready® soybeans for planting, you will have to manage your harvest operations and grain storage so that the seed isn't co-mingled with other seed that's covered by intellectual property rights.

For a list of Bayer's trait patents go to cs.bayerpatents.bayer.com

For questions regarding seed intellectual property, or to anonymously report a saved seed tip, you can contact Bayer in the following ways:

- Call 1-866-99-BAYER
- Send a letter: Trait Stewardship, 622 Emerson Road, Suite 150, Creve Coeur, MO 63141
- Submit a contact request at cropscience.bayer.us/contact or scan the QR code

High Value of New Branded Seed

Latest Technology

- // High-yielding soybean technologies
- // Better variety options
- // Leading seed treatment options

Customer Service

- // Dealer agronomic support before and after the sale
- // Replant policy support
- // Convenient packaging and delivery

Reliable Germination and Quality

- // Rigorously tested and meets U.S. Federal Seed Act requirements
- // Free of seed-borne diseases
- // Properly stored and conditioned

Bayer is a member of the Seed Innovation and Protection Alliance. Visit www.seedalliance.com to learn more. 39K™ is a trademark of the Seed Innovation and Protection Alliance. Bayer is a member of Excellence Through Stewardship® (ETS). Bayer products are commercialized in accordance with ETS Product Launch Stewardship Guidance, and in compliance with Bayer's Policy for Commercialization of Biotechnology-Derived Plant Products in Commodity Crops. Commercialized products have been approved for import into key export markets with functioning regulatory systems. Any crop or material produced from this product can only be exported to a country or country/territory where all necessary regulatory approvals have been granted. It is a violation of national and international law to move material containing biotech traits across boundaries into nations where import is not permitted. Growers should talk to their grain handler or product purchaser to confirm their buying position for this product. Excellence Through Stewardship® is a registered trademark of Excellence Through Stewardship. ALWAYS READ AND FOLLOW PESTICIDE LABEL DIRECTIONS. It is a violation of federal and state law to use any pesticide product other than in accordance with its labeling. NOT ALL formulations of dicamba or glyphosate are approved for in-crop use with Roundup Ready 2 Xtend® soybeans. NOT ALL formulations of dicamba, glyphosate or glufosinate are approved for in-crop use with products with XtendFlex® technology. ONLY USE FORMULATIONS THAT ARE SPECIFICALLY LABELED FOR SUCH USE AND APPROVED FOR SUCH USE IN THE CROP OR APPROXIMATE. Contact the U.S. EPA and your state pesticide regulatory agency with any questions about the approval status of dicamba herbicide products for in-crop use with Roundup Ready 2 Xtend® soybeans or products with XtendFlex® technology. Roundup Ready 2 Xtend® Technology contains genes that confer tolerance to glyphosate. Roundup Ready 2 Xtend® soybeans contain genes that confer tolerance to glyphosate and dicamba. Products with XtendFlex® Technology contain genes that confer tolerance to glyphosate and dicamba. Glyphosate will kill crops that are not tolerant to glyphosate. Dicamba will kill crops that are not tolerant to dicamba. Glufosinate will kill crops that are not tolerant to glufosinate. Contact your seed handler or refer to the Bayer Technology Use Guide for recommended control programs. Contact your Bayer retailer, refer to the Bayer Technology Use Guide, or call the technical support line at 1-888-281-0841 for recommended Roundup Ready 2 Xtend®/XtendFlex® soybean weed control programs. Bayer, Bayer Crop, Roundup Ready 2 Xtend®, Roundup Ready 2 Yield®, Roundup Ready®, and XtendFlex® are registered trademarks of Bayer Group. LibertyLink™ and the Water Droplet Design™ is a trademark of BASF Corporation. ©2012 Bayer Group. All rights reserved.

NOTES

Seed containing a patented trait can only be used to plant a single commercial crop. It is unlawful to save and replant Roundup Ready 2 Yield® soybeans, Roundup Ready 2 Xtend® soybeans, and XtendFlex® soybeans. Additional information and limitations on the use of these products are provided in the Technology Stewardship Agreement and the Bayer Technology Use Guide: tug.bayer.com. U.S. patents for Bayer technologies can be found at the following webpage: cs.bayerpatents.bayer.com
